

22 JUN 1964

MEMORANDUM FOR: Deputy Director for Support

25X1A6a

SUBJECT : Alterations in [REDACTED]

REFERENCES : (a) Memo to DD/S from AD/OL, dated
1 June 1964, same subject

(b) Memo to C/LSD/OL from Asst. for
Admin., NPIC, dated 19 May 1964,
same subject

1. This memorandum contains a recommendation for Deputy Director for Support approval. This recommendation is contained in paragraph 6.

2. The two items referred to in paragraph 4 of reference (a) and which are described as Attachments "G" and "H" in paragraph 3 of reference (b) have been staffed out and estimated by the Public Buildings Service, Region 3, Design and Construction Division. PBS estimates are given herewith:

Attachment "G"

Installation of Thermopane	\$16,000
or	
Installation of Storm Windows	\$7,200

<u>Attachment "H"</u>	<u>\$59,436</u>	<u>\$59,436</u>
	\$75,436	\$66,636

3. This office has reviewed the proposals and estimates of PBS. In respect to Attachment "G", we recommend the installation of storm windows which will accomplish the same objective as the Thermopane at less than one-half the cost of the latter.

4. PBS revised estimate of \$59,436 for the modification per Attachment "H" is roughly one-half of the earlier estimate of \$115,000.

JUST	22	NEXT REV	2012
AUTH	HR	78-2	

This reduction became possible when it was determined that the fumes, while unpleasant and annoying, were not toxic and PBS was able to design a less costly modification to correct the condition.

5. The two problems described in Attachments "G" and "H" are considered to be building deficiencies and it is proposed to use a portion of the construction funds now available to PBS to fund the cost of these modifications. Attachments "A" through "F" were approved by the Acting Deputy Director for Support on 3 June 1964. These are being funded from NPIC funds and PBS is proceeding with the work.

6. In our judgment, PBS has submitted satisfactory solutions to the problems in Attachments "G" and "H" and their estimates are reasonable. It is recommended that you approve the use of building construction funds in the amount of \$66,636, to enable PBS to proceed with these projects.

25X1A9a

JAMES A. GARRISON
Director of Logistics

The recommendation in paragraph 6 is approved: *
